# webeyeFOG – Peripherals

**webeyeFOG**

## WF CARTRIDGE

The webeyeFOG Cartridge is a smoke cartridge that can be used with the webeyeFOG system. The smoke emitted by the cartridge is non-toxic, smells of incense and leaves no residue.

## WF CONTACT

The webeyeFOG Contact is a wireless contact supervised transmitter ideal for wireless perimeter door/window protection. The transmitter has a built-in magnetic contact and is powered by a 3-volt lithium battery.

## WF REMOTE

The webeyeFOG Remote is a stylish 2 button keyfob which provides users with a convenient way to control the security fog system. The remote control is easy to use with buttons for arming and disarming as well as a panic function for immediate alarm. The LED flashes different colours according to system status and there is a useful vibration mode.

## WF TRANSMITTER

The webeyeFOG Transmitter is a Transmitter that automatically triggers the webeyeFOG Wireless unit. Extends the range from the alarm panel and allows up to 6 units to be controlled from one alarm panel.
