

ABOUT

The DVS Klein Tools Pro Kit consists of a collection of top quality Klein Tools to help you get the job done.

APPLICATION

Tradesman ProTM Tool Station Tool Backpack - 21 pockets and a large interior for maximum tool storage. The front flap of the backpack unzips halfway for quick tool access, or fully extends for workstation access. Made of water resistant 1680d ballistic weave material for durability.

Compact, Multi-Connector Compression Crimper - Features an adjustable universal plunger that crimps different types of compression connectors quickly and accurately. User-friendly gauge markings indicate correct plunger positions, saving you time and eliminating guesswork. An enhanced pivot point provides smooth, wobble-free operation.

160 mm Cable Cutter - Klein Tools Cable Cutters have been specifically designed to cut and strip aluminium and copper cable with ease. The two blade profiles maximise the efficiency of cutting and stripping. Cuts and strips up to 9mm 50 mm²

5 Piece VDE Insulated Screwdriver Set - Feature ergonomic grip handles for greater torque and comfort. They meet or exceed the IEC 60900 and ASTM F1505 standards for insulated tools and are clearly marked with the official 1,000-volt rating symbol. Anti-roll design prevents tool loss, while the slimmer tip provides easier access to circuit breakers and other tight spaces.

SPECIFICATION

Product Name | DVS Klein Tools Pro Kit

Item Code | DVS-KTPK

Aluminum Torpedo Level Rare Earth Magnet, 9-Inch - features powerful rare-earth magnets with a patented magnet track, which can secure the level to any metal surface. This level has large, easy-to-read vials for measurements at 3 angles: level, 90° and 45°. Top-view vial-view windows allow easy reading from a variety of angles.

7.5m Double Hook Magnetic Tape Measure - Two-sided blade printing in centimetres and inches. Uncluttered, easy-to-read lines marked on the blade. Dual-angle magnetic hooks attach to conduit and steel studs. Up to 3 m stand-out.

Auto-Loading Folding Utility Knife - Change blades quickly and safely with Klein Tools' Auto-Loading, Folding, Retractable Utility Knife. The simple, three-step auto-loading feature lets you change the blade with minimal exposure to the knife blades. Just push the blade-release button to remove the old blade, slide the lever back and push it back out to release the new blade. An internal blade storage area holds up to three blades.

High-Tension Hacksaw - The High-Tension Hacksaw has an adjustable blade tension up to 30,000 lbs per square inch for fast, precise cuts. Includes 12" (305 mm) x 24 TPI bi-metal hacksaw blade and 6" (152 mm) x 24 TIP bi-metal reciprocating saw blade. Also has convenient blade storage in the handle and soft touch grips.

CONTENTS
