<b>Item Code</b>	DVS-SRPK
<b>Length</b>	13 metres - 4 Rod Flexibilities
<b>Attachments</b>	ATTACHMENTS 10 in total (see CONTENTS)

**ABOUT**

The DVS X Super Rod #REALINSTALLERS Tool Kit is a dedicated kit, purely aimed at the needs of any CCTV installers. It offers 13m of rod length, 4 flexibilities and 10 innovative attachments, including the chain and magnet to retrieve cables and the Super Grips to attach cables securely. It also comes a Carry Case, perfect holding device to house your Super Rod products .

The kit also includes the Super Rod 10 mm Quick Drill, One Tool Solution to cable guiding. Users can drill a cavity wall in the normal way, connect the cable and pull it through the cavity. A brilliant time and money saving innovation. For more information about this product click here:

**APPLICATION**

Rod kit: Route, Retrieve, Grip, 4 Flexibilities  
 Drill Bit: Routing of Cables, i.e. Electrical, TV, Satellite, Telephone, Alarm, Data, Speaker etc

Simply drill through the wall in the required place, bare a short length of wire at the end of the cable to be pulled. Thread through the specially designed hole in the end of the drill bit or detach the SDS machine and thread through the hole in the shank end and pull the cable through. Especially useful when there is rubble or insulation material present in the cavity as the drill bit is left in place whilst the cable is attached.
