

• **SP20T8:** 20W 100v / LowZ Voice & Music Projector Speaker

The **SP20T8 professional Sound Projection Loudspeaker** is for indoor and outdoor voice and music PA applications.

This 20 watt 100v line / low impedance Commercial Loudspeaker provides excellent music reproduction and clear voice announcements.

It's IP65 protection rating ensures proofing from water and dust ingress to provide effective operation both indoors or outdoors in transport terminals, shopping centres, retail, warehousing and many other applications.

The SP20T8 Projection Speaker includes adjustable mounting bracket and 100v line tapping adjustments of 20W and 10W, as well as 20W 8ohm.

For sound coverage in large areas, open spaces and noisy environments, one would normally specify horn speakers. However, where a higher quality sound reproduction is required (eg. music) Sound Projectors will usually provide a wider frequency response for improved performance.

What is an IP rating?

An IP Rating (also known as 'International Protection Rating' or 'Ingress Protection Rating') measures the characteristics of a product in terms of its resistance to penetration of objects and fluids.

Features:

- Weather/ingress resistance (IP65 rated)
- Robust plastic housing
- Steel grille and mounting bracket
- 100v & Low Impedance Power tapings
- White RAL9010
- Capable of clear voice & music projection

Specifications:

Model:	SP20T8
100v Power Tappings	10, 20W
Low Z Power Output	20W
Termination	Black - Com : Red - 20W : Yellow - 10W : Green - 8Ω
Frequency Response	130Hz - 15kHz
Sensitivity	91dB @ 1W/1m
Colour	White
Material	ABS Housing, metal grille & bracket
Dimensions	138(Ø) x 205(D) mm
Weight (Net)	1.30kg
Weight (Gross)	1.50kg
