

## ABOUT

The Polymer Rod Set is a non-conductive cable routing tool, perfect for use in electrically sensitive areas such as data cabling, computer housings, telecoms and machinery.

The GRP and Polymer mixture used to produce the kit offers excellent strength, whilst different ratios and profiles offer a range of flexibilities. The 4 piece set offers excellent value, making it the perfect starter or occasional set.

## APPLICATION

• Route • Retrieve

- 1 x Domed Bullet
- 1 x Mini Eye
- 1 x Glow Claw
- 1 x Domed Eye
- 1 x Mini Hook

Polymer Rod Set 4 **SRPRS**

This non-conductive, shortened set of rods is ideal when working in confined spaces. Whilst it is compatible with the standard range of Super Rod attachments, it has its own range of polymer 'Glo in the Dark' attachments. An excellent choice when working in electrically sensitive areas such as server rooms.

Why is it ideal for working in electrically sensitive areas?

- 3 different configurations of kit.
- Non-conductive polymer material makes it ideal when working with sensitive materials and components.
- All attachments are 'Glo in the Dark', perfect for working in dark conditions.
- Easily fits in your toolbox.
