Introduction.

Vosker designs and manufactures the world first mobile security cameras.

Vosker cameras require no Wi-Fi or AC power to operate. They are completely wire-free and fully LTE mobile enabled. Being weather and future proof, our cameras are a must use in today's world.

Vosker AI capabilities ensure users receive only the alerts that matter to them. They will serve their users best in remote locations such as: construction sites, farm lands, parking lots, marinas, sugar shacks and vacation home or cabin.

STELLAR CELLULAR CONNECTIVITY

LTE

4G

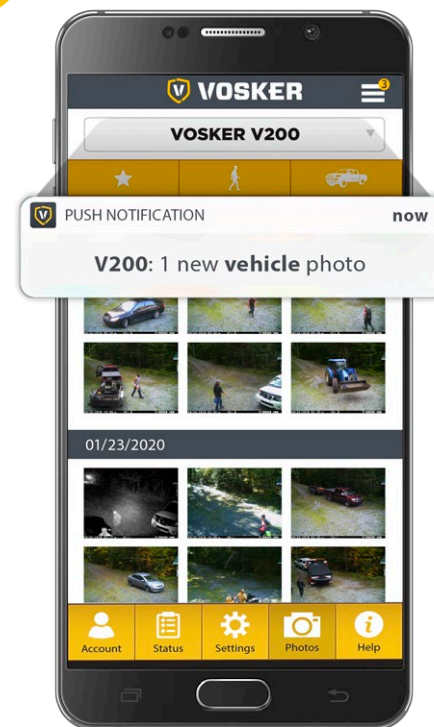

No Wi-Fi? No Problem!

Peace of mind,
no matter where you are.

VOSKER security cameras work where others just don't. No need for Wi-Fi thanks to 4G/LTE mobile connectivity.

Designed to save data and energy for maximum autonomy, set them up in any location and get pictures right to your phone.

EASY TO USE.

Each VOSKER mobile camera includes a **preactivated SIM card**, SD card and mounting bracket. Ready to use in minutes, enjoy 30 days of unlimited photos or choose our **FREE starter plan** (100 photos/month). No phone carrier required.

-  100% Wireless
-  5 minute Setup
-  Reliable Power
-  Solar Compatible
-  Weather-Resistant
-  Night Vision
-  Low Data Usage

SENSE

AI by VOSKER

VOSKER SENSE is an AI solution powered by VOSKER, trained to recognize and analyse your security camera's photos.

This technology helps you get the photos you need by identifying human or vehicle activity in the monitored area.
